

TECHNICAL DATA SHEET

Sound Curtain Enclosure UN-10 CV Windows

eNoise Control offers noise barrier clear view windows. The vinyl windows constructed are 1-lb psf vinyl barrier. Curtain panels are constructed with grommets across the top and Velcro along the vertical edges. Rolls are available 54" wide x 25' long and can be supplied with edges bound or unbound (note: barrier is 54" wide, quilt is held 3" in from each vertical edge, and measures 48")

- Class A (or 1) flammability rated per ASTM E84
- Available facing colors: gray, white, black, or tan
- Available barrier colors: gray, tan, or blue

Applications:

Typically used as curtain panels in acoustical curtain enclosures where abuse resistant material or high standards of durability are required. Panels are frequently used as partitions, walls and sliding doors on acoustical curtain enclosures. They are also preferred for use in outdoor applications, as well as, being a proven reliable durable acoustical wrap.

Acoustical Performance:

Sound Transmission Loss
