

IAC Acoustics Quick Ship Door Program

The IAC Acoustics Noise Lock Quick Ship door program allows for standard doors to be ordered and shipped in 15 business days. We provide a virtual interface for consumers to create a request for quote by selecting door size, fire rating and hardware. That request is then sent directly to the territory distributor arming them with all the necessary information to reach out and quote the job. **IT'S THAT SIMPLE!**

WHAT ARE WE OFFERING?

- ✓ The acoustic doors come prime painted ready for field paint.
- ✓ Our Noise Lock quick ship doors have an STC rating of 51.
- ✓ They come fully assembled including factory installed seals and hardware.
- ✓ Each door is pre-hung to ensure proper fit and finish in the field.

HOW DO WE STACK UP AGAINST THE COMPETITION?

CATAGORY	IAC ACOUSTICS	DOOR KIT COMPANIES
ASSEMBLY	<ul style="list-style-type: none"> ✓ <i>IAC Acoustics doors come factory assembled. The door and frame are pre hung and the gaskets come installed.</i> ✓ <i>This ensures ease of install and offers no compromise to the STC ratings</i> 	<ul style="list-style-type: none"> ✓ <i>Door Kit Companies ship the frame, door leaf and gaskets all loose</i> ✓ <i>Hardware is not included</i> ✓ <i>In field assembly may cause for compromise to STC rating</i>
HARDWARE	<ul style="list-style-type: none"> ✓ <i>Our hardware comes factory modified and installed</i> 	<ul style="list-style-type: none"> ✓ <i>Partial prep is offered as an option</i>
SEALS	<ul style="list-style-type: none"> ✓ <i>Double seals are included and factory installed prior to shipment</i> 	<ul style="list-style-type: none"> ✓ <i>Compression seals are provided and shipped loose with order.</i>
PERFORMANCE	<ul style="list-style-type: none"> ✓ <i>IAC Acoustics doors have guaranteed performance based on level head and plumb jam.</i> ✓ <i>The limited interference to the door assembly reduces time and additional costs as well as guarantees STC performance</i> 	<ul style="list-style-type: none"> ✓ <i>Door Kits performance is based on level head, plumb jamb, shimmed hinges, grout, modification of hardware and fitting of compression seals.</i> ✓ <i>All of these variables lead to compromised performance</i>
AESTHETICS	<ul style="list-style-type: none"> ✓ <i>Our fastener screws are not exposed making for a more aesthetically appealing finished door.</i> 	<ul style="list-style-type: none"> ✓ <i>Kit companies provide doors that have exposed screws at the jambs, sill and head of the door</i>
REMODEL	<ul style="list-style-type: none"> ✓ <i>This IAC Acoustics door is a split frame and be inserted into the wall opening</i> 	<ul style="list-style-type: none"> ✓ <i>N/A the door frame will need to be installed during wall construction</i>
